

CALEB WAGNER

SOFTWARE DEVELOPER

ABOUT ME

I'm a Software Developer with experience developing full-stack applications seeking to pursue an opportunity with a growing organization that will utilize and enhance my knowledge in software development, and that will provide me with essential growth opportunities.

PROJECTS

Where Was I | Front-End Application

- A solo note taking app that lets users create notes within notebooks.
- Users are able to create notebooks/notes, highlight important notebooks, search for notebooks/notes in search bar, and have the ability to edit and delete.
- This single-page app implements CRUD functionality and was created utilizing React, React Router, and API fetch calls to JSON server.

uTeachiLearn | Full-Stack Application

- A solo React and Django app that helps those who want to learn a new skill connect with a mentor who's willing to teach them.
- Users can create a post and include what they want to learn and a teacher can connect with them through the post. Users can also create categories, schedule meetings, and send messages within the app.

Rare | Full-Stack Application | Group Project

- A group full-stack app using React for the client side and Django Rest Framework for the server side.
- Users can create a profile, post articles, comment on articles, create tags, and categories.

TECHNICAL SKILLS

- HTML5
- CSS3, Bootstrap, Tailwind
- Javascript, React
- JSON Server
- SQL/SQLITE
- Python, Django
- Git and Github

TECHNICAL EXPERIENCE

Software Developer

Nashville Software School | April 2020 - Present

- Intensive, full-time 6 month software development program learning full-stack technologies through the creation of applications in the group and individual setting.
- Developed dynamic single-page applications using Javascript, Reacy.js, SQL, Python, and Django.
- Learned fundamentals such as HTML, CSS, JSON, modular code, and Entity Relationship Diagrams
- Used Github to perform and review pull requests to ensure working code free of merge conflicts

Devilery Driver

Amazon Logistics | August 2020 - April 2021

- Transporting and delivering goods and/or items to clients or business in a safe, timely manner.
- Examining and/or reviewing orders before and after delivery to make sure that orders are complete, charges are right, and clients are satisfied.
